

Call 1-866-333-4246 for more information. Available with a prescription. Talk to your doctor. A defibrillator treats the most common cause of cardiac arrest and will not save everyone. More lives could be saved if cardiac arrest victims were reached more quickly with defibrillators.

After cardiac arrest, you need help within 5 minutes. The ambulance usually takes 9.

Philips HeartStart Home Defibrillator. For the best chance of survival, a shock should be delivered within five minutes. But most sudden cardiac arrests happen at home, where help often doesn't arrive in time. So Philips designed a defibrillator for the home that can be used by people just like you. Now you can help save a life in about the time it takes to read this ad. It just makes sense.
